Are you interested in becoming a Regional Delegate or Coordinator, or interested in organising a Rally or a Get Together for your Region?
Our Club will not survive into the future unless we have people willing to put their hands up.
Please feel free to discuss this with a Committee Member or email a message with your suggestion

Acting President's Update from the Committee Room February 2026

Greetings everyone, once again it is my pleasure to bring you news from your committee.

We met via zoom on 10/02/2026, we had an apology from Kerry who was and still is keeping tabs on Ken, who has gone from one fall to another with quite serious consequences. Our thoughts are with them both.

We also acknowledged the passing of Pat Allridge.

I presented a detailed letter from our Webmasters who requested input from the Committee. The Committee gives them freedom to work on the website as they think best and to liaise with me (President) about anything major, we look forward to seeing the result.

Club information on Facebook has been updated, as a result I am also now an administrator along with Sandra Sampson.

An bonus occurred, with the printing of the Traveller being in full colour due to the regular printer being on leave. I have suggested to the Committee that our magazine looks more professional in full colour. It was decided to ask our editor John Vannereau to provide a costing for the price difference.

There has been an enquiry from members as to what happens to Club equipment when not required any more. Club equipment remains the property of the Club, this is in our Constitution, they cannot be sold or distributed to members.

Fran, our DLO, requested a decision on a Club subsidy for attendees at rallies organised for the AGM in September, after some persuasion and discussion with our treasurer David, an amount of $40 per person was decided upon, this will go to the organisers of the rallies not to individuals.

I would like to remind everyone at this point that the terms of office of our Secretary Geoff Woodard will become vacant, and it is imperative for the continuation of ATRVC that this position is filled at our next AGM.

I look forward to seeing more rally and lunch photos on Facebook, a great advertising vehicle for our Club.

Take Care, stay safe, and enjoy your travels.

Your President-Mary Claridge

Victorian Rally - Marysville Caravan & Holiday Park 29/1/>5/2/26

What a wonderful location. You could not get a more picturesque location in Victoria. The Caravan Park was extremely generous to us in their pricing. The facilities were excellent to satisfy our needs and a great bunch of members to socialise with. The park had many King Parrots, Kookaburras, and Sulphur Crested Cockatoos as residents.
We only had a small group of 15 members in attendance. (6 Caravans and 2 Cabins). We were pleased to welcome Roger & Roslyn Lowry from Dubbo. Unfortunately, 3 members were apologies on the day prior to arrival due to ill health and another member had not fully recuperated after a recent operation.

Thursday 29th January.

Today we had all Caravans arriving with 10 members and 1 guest.
This was our first Happy Hour together so there was much to catch up on since our last luncheon in December.
Tonight, we had the usual sausage sizzle followed by Ice Cream and topping (Supplied from Rally Fee).

Friday 30th January

The morning was for everyone to enjoy.
Our first excursion was held in the afternoon, after the 4 remaining members residing in the cabins arrived.
We all visited the incredible works of Bruno Torfs and his 188 clay sculptures scattered throughout his two-acre property walking in and around the paths amongst all the trees and ferns.

We were privileged to receive a talk from Bruno since choosing to purchase this property and his journey from pre 2009 to now.

It is hard to believe that the 2009 fires that totally wiper out the whole township of Marysville leaving just 12 houses standing.

Bruno's property and sculptures were totally razed.

This was followed by a visit to spectacular Steavenson Falls just 4 kilometres away. The path was only 200 metres and totally wheel chair friendly.

Our first Happy Hour, with everyone in attendance, was held in the afternoon.
For Dinner tonight everyone enjoyed a cook your own barbeque with a salad to share.

Saturday 31st January.

At 9am today we had a Pancake Breakfast cooked by John & David. They were huge and scrumptious with various toppings to choose from.

We had our second excursion to the Buxton Trout and Salmon Farm. This farm was using the water that came from Steavenson Falls that we visited yesterday.
Spokesman Brodie took us on a tour and explained the whole procedure from stripping the eggs from the various Trout species and the Salmon then fertilization of these eggs through to the full-sized sale to their customers.
We walked around the undercover breeding water tanks and then around the outside ponds with the various sizes of fish.

Brodie advised that during the 2009 fires this farm was totally razed with $4 million in stock lost together with all building's sheds and housing. The photos and books on display really show the devastation that occurred.

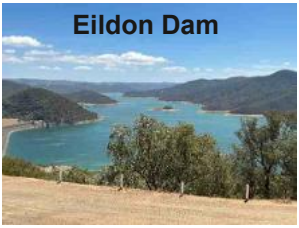
Outside trout holding tank.

Some members went for a short drive to visit the water hole where 5 rivers meet. There's always one who wants to see how deep it is!

We then meet up with the other members who were waiting for us at the renowned Buxton Hotel, where we had a lovely meal before returning the 15 kilometres to the Caravan Park.

After Happy Hour we just did our own thing for our dinner in the Camp Kitchen. This was followed by a few games of Card Bingo.

We had another very interesting excursion this morning, 50 kilometres away at Eildon Dams Museum. We were fortunate to have the 94-year-old founder present his passionate presentation on the story of the Eildon Dam. The original wall was commenced in 1915 modified in 1929 and again in 1935. In fear of collapse with flooding feared downstream a much higher wall was commenced in 1951 and finished in 3 years. Height of the wall was raised from 90 feet to 277 feet. There is also a hydro power station built into the construction. There are 5 rivers flowing into the Eildon Dam. Water flows down the Goulburn River and feeds the Goulburn Weir and Waranga Basin before being used for irrigation throughout Victoria. There were 2000 workers employed and 900 houses for the employees when the dam was extended in 1951. This is the largest dam in the Southern Hemisphere.



The very first Houseboat that was floated on the dam is on display, (originally built for the Rockman Family of Rockman's Emporium which closed in the 1960's).

After having a lovely lunch at the popular Bakery, we went to visit Foggs Lookout with excellent views overlooking the Dam.

From here we visited Snobs Creek Falls which had 3 viewing platforms at different levels.

It was then the trip back for Happy Hour before being picked up by the Marysville Golf & Bowls Club courtesy bus to have a lovely meal in their restaurant.

Monday 2nd February

This morning was free for members to do what they wish.
Some members visited the nearby town of Alexandra for a look.

After lunch we played disc bowls. The winner was John Dijs with the runner up being Graham Wade.

After Happy Hour for dinner tonight we had “Build your own Hamburger followed by Apple Pie and Ice cream being supplied from rally fee.

Tuesday 3rd February

Today was a free morning. Some members went for a drive to Keppel Lookout which overlooks the township of Marysville and the Marysville reservoir.

In the afternoon we played Ladder Golf, the winner being Maggie.

After Happy Hour, we had a mixed grill with salad for dinner,all supplied from club rally fees.
Tonight, whilst cooking on the barbeque we had plenty of friendly parrots hanging around.

Wednesday 4th February

Once again today was a free morning.
This afternoon we had a game of Finska. The winner was Roslyn.
After Happy Hour for dinner, we had the usual B.Y.O. nibbles with Party Pies supplied by club.

In the evening the winners of Disc Bowls, Ladder Golf & Finska were presented to John,Roslyn & Maggie.

We thank all members for their input, help and assistance to make the rally the success that it was.

Riddells Creek Hotel Luncheon Vic 19/2/26

Wow what a turn up. We had 24 members in attendance and 5 apologies. If all could have been in attendance it would have been possibly the largest number in many years.

We had not caught up with Ian, Graham, and Stacie since our last luncheon here 12 months ago as they are all unable to caravan. The all live in Riddells Creek or Sunbury. Member Glenys also lives in Riddells Creek.

We also welcomed Steve & Donna, and David & Lucy, to their first metropolitan.

Lunch visiting from Mulwala & Cobram.
We all enjoyed a lovely meal and drinks over the duration of the afternoon. Unfortunately, we were all on one long table so good photos were difficult.

At this luncheon we were blessed to have our four longest members in attendance.

The only member with longer membership is our founder Brian Kelleher 1999.

Ian & Bev Arnel joined 2001 (Member No Aus 160) (Unfortunately Bev was unable to attend).

Stacie Morter joined 2001 (Member No. Aus 178) Unfortunately no photo.
Steve & Elaine Nichols joined 2002 (Member No. 24)

Ian Arnel & Steve Nichols

Ian Arnell & Malcolm Carter

Ian has signed up many people as members.

From our current membership list, we know that Ian has signed up Donna & Steve Hole (Member No. 886), Malcolm & Wendy Carter (Member No. 920) and Glenys Moyes (Member No. 1104).

We also know that there are at least 3 other people signed up but have since left the club.

Wendy & Malcom Carter

Vale Pat Alldridge Mem #978

Pat & husband George, joined the Club in Nov 2014

Pat & Joan Heisner enjoying the fire pit at the Nthn/Sthn Qld rally at the Warwick showgrounds Aug 2019.

A memorable event occurred at a rally in Boonah, as recounted by Joan Witherspoon.
Husband George had done his & Pat's laundry & had hung all Patsy's undies outside of the door of their caravan. Someone stopped & spoke to him, and his head popped out between the underpants all around his ears! So funny at the time.

Pat was always good for a laugh and LOVED to shop!

At the Sthn Qld & Nthn NSW Allora rally in Oct 2017, Members were up dancing to the sound of Jim Kelly's repertoire of music & songs playing well into the night. Would you believe that Jim played at George & Patsy Alldridge's Wedding, and they had been married for 50 years!

RIP Pat.

The Joys of Caravanning!!

I have always thought that owning a boat was akin to standing under a shower & shredding $50 notes!

I am not sure where that places caravan ownership – maybe standing in a sunbaked outback setting doing the same.

Still, 2026 is the dawning of a new caravanning year & the shredding of notes.

Mary & I succumbed to the lure of a week away in the van in Jan, a short trip, a sort of shake down, to find out what was still working, prior to the 'season' start.

The mandatory pre-start checks, mechanical, tyres & electrical, prior to leaving, were completed.

The van tyres looked good, plenty of tread & pressures to specs, until getting closer, found a tyre totally scrubbed on the inner tread, hidden in plain sight! (should have had my cataracts seen to earlier).

Having no desire to the possibility of having to change a tyre 'on the road' (it was only a concern when noticed), I decided to change it at home.

Having trodden this earth for 8 decades and finding that my once supreme athletic body was no longer at it's prime - my finely sculptured Pecs were now 'Moobs" (Gynecomastia).

With much straining/swearing etc, wheel changed & then it was off on our week away, which was very enjoyable, if hot, vacation.

On the trip home, Mary kept commenting on a high pitch noise emanating from the engine bay. Naturally, being a male & not wearing my hearing aids, I could not hear it.

Turns out that her superior listening abilities had identified what was a split intercooler hose.

As in all things mechanical, remedial work snowballed to replacing all engine pulleys, the serpentine belt & the offending hose.

All good to go, not yet!

Took van to have wheel alignment (it tracked a lot better when done) & then off to the tyre shop to have a new spare tyre fitted.

The satisfaction of pointing at the spare wheel hanging off the back of the van & saying fit new tyre (please).

Meantime, off for a coffee. On return, new tyre on rim & wheel on back of van, with no sweat lost on my behalf, apart from opening my wallet (I suffer from deep pockets & short arms).

All good to go, Nope!
The tug needed 4 x new tyres after 60K Km,which were duly fitted.

Now all good to go, Nope!
The Van is booked in to have various water leaks fixed & wheel bearings checked.

All good to go after this, Yes!

But….Lurking in the background are impending Engine service (since done) and a Transmission service.

Another hitch to compound the above. After 16yrs caravanning, I successfully managed to lose the caravan keys!

Fortunately, I had a set of spares, but am now having to source spares to replace the spares - an interesting excercise.

Meanwhile, I haven't even got to that sunbaked outback setting!

Editor JohnV.

Caravan Trends Australia 2026

The following are the key points

- Lithium Battery Systems Are Now the Standard
- True Off-Grid Capability
- Smaller, Smarter Caravans Are Outselling Large Vans
- Off-Road Suspension & Chassis Upgrades Are Essential
- Interior Design Is Shifting to Lighter, Practical Finishes
- Purpose-Built Storage Over Empty Space
- Connectivity Is Now a Must-Have
- Outdoor Living Takes Priority
- Weight Management Is Driving Smarter Builds
- Buyers Want Advice, Not Pressure

Visit to Wheelchairs for Kids Factory
Kingsley Tavern Lunch 3/2/26

About 40 of us visited the Wheelchairs for Kids factory in Wangara. The visit included a tour of the premises to observe the making these wheelchairs. Another reason for our visit, was to present the ATRVC cheque for $1502.40. Most of these funds were raised at our ATRVC National Rally held in Albany last October, via our Market Day, Raffle and Auction. We thank all members Australia wide, who contributed to this. Proceeds of these events, also enabled donations to be made to the RFDS and several local charities.

For anyone who does not know, Wheelchairs for Kids, is a volunteer based charity, making World Health Organisation standard wheelchairs for disabled children in more than 80 Third World underdeveloped Countries. These wheelchairs are all terrain and fully adjustable, so that they can be adapted to the growing child, how great is that? This factory in Western Australia, is the only place in the world making these special life enhancing wheelchairs. When approached USA, Canada and England declined saying it was too hard to do …!?!

Each wheelchair is numbered and they liaise with partners around the world, getting before and after photos of each child, ensuring the best possible fit. We were all amazed at the level of detail and care shown, and the joy on the faces of these often bedbound or even floor bound youngsters, was very moving.

One of the founding members, Brother Ollie, was 2025 Senior Australian of the year, and this is how one of our members heard of this Charity, and asked if this was something we could support. It turned out that Brother Ollie had taught the children of some of our members, in fact one our number was already volunteering there one day a week …! It was a day that will remain in our memory for some time to come.

After our Wheelchair for Kids visit we set off for our booked lunch at Kingsley Tavern.

I thought 40 of us visiting the Factory was quite good, but we were just shy of 50 for this gathering. It was lovely to see so many attending for our first lunch of the year! The Tavern were very accommodating with me, as I keept adjusting the numbers and then ringing to say we were going to be late! Phew!

Everyone seemed to enjoy their meals, with the exception, unfortunately for those that ordered the Squid.

We had our usual update from Ric, plus Geoff gave us some info about the forthcoming Rally he and Denise are planning for later in the year.

We were all on a high after our donation and factory visit. As you can imagine, the noise level became quite loud as we all socialised with one another.

It would seem a good start has been made to 2026 and we look forward to enjoying more of our ATRVC's activities during the year.

ATRVC ANNUAL FEES 2025

Winter is On Its way - Be Prepared!

Battery-Rechargeable Heated Socks

Camping with cold feet is awful. Possibly one of the worst feelings. No matter what you do, it feels as if you just can't heat them up. And sometimes, your rusty wool socks just can't seem to get the job done.

That's when you should reach for not just any old heated socks, but battery-rechargeable ones. They are made of cotton, keeping them breathable while also keeping your feet warm. They are also quick to dry in case they get wet.

These socks can reach up to 150F, so your feet will be nice and toasty. If that sounds too hot, you don't have to crank it all the way to the maximum — there are three levels of heat: high, medium, and low. When you set your socks to low, they'll stay warm for up to 19 hours on one battery charge.

We extend a very warm welcome to the following members who have recently joined.

Please take the opportunity to join one of our get-togethers soon & meet some of the characters that make up the Club.

Membership Challenge

CLUB AIM

Every Member to introduce one new member per year.

(Singles, Couples and Families are all welcome)

"There will be a prize of FREE MEMBERSHIP for ONE YEAR, for the most introduced between the 2024 AGM and the 2025 AGM!"

Chinglish Instructions Included with Jump Starter Leads

2M Durable Jumper Leads, Heavy Duty Duty Car Jumper Booster Cables, Car Truck Battery.

Description:-

- After turning off fire, watching DVD's in the car & listening to music.
- Forgetting to turn off headlights, these behaviours will quickly exhaust the battery.
- When you turn the key & want to start the car, you will find that you can't catch fire.
- This is inevitable because the battery's power is no longer able to drive the starter, what should I do at this time?
- If it is a manual car, you hang up the bumper to ignite, but if it is an automatic car, this trick is invalid.
- How to do? Waiting for the rescue? If so, you have a line of fire on your hand or in a passing car, you don't need to be so troublesome.
- Don't worry when your car doesn't have a car because you don't have electricity.
- Take a Taxi from the side of the road and get two clips at a time.
- There are very few cars when there is no electricity, but once in a while there is no electricity.
- It will be anxious to die. Not afraid of 10,000, just in case, or bring a battery clip will be good. No worries.
